NORTHWEST STAFFING RESOURCES' INTERNSHIP PROGRAM

Northwest Staffing Resources' (NSR) Internship Program offers student employees an opportunity to gain professional work experience while continuing their education. We partner with local universities that want to further enhance their programs by offering students college credits for paid internships.

Benefits of Northwest Staffing Resources' Internship Program

- Northwest Staffing Resources takes the hassle out of finding willing to offer internship programs. We do the leg work, finding those companies that will fit your goals and education background.
- NSR screens potential internship clients to ensure that you find a match that meets your needs and fulfills your university program expectations.
- NSR provides client's in the field or a closely related field to your educational expertise.
- NSR ensures internship clients have a viable, documented job description of position you will be filling as an intern.
- The internship program encourages clients to hire those interns who perform well in the program, thus providing interns with a "foot in the door" opportunity.
- NSR offers part time and full time internships to work with your school schedule.
- We work with your university to ensure the internship opportunity meets all of the university's requirements to ensure credit is received.

For more information on NSR and our internship program, please call your local office.
