

NW Staffing Resources – Applicant Confirmation

Thank you for applying with NW Staffing Resources! We have received your application. Our Recruitment team will review your information, and you may receive a text or call from an automated agent to schedule your initial phone screening for the position.

Once initial screening is complete, or if you did not apply for a specific job but appear to be a match for one of our openings, a recruiter may contact you to schedule a formal interview.

You can view your profile in the NWS portal at:

webcenter.ontempworks.com/NorthwestStaffing/Account/Login

A quick note about our screening process: That initial call or text you may receive is from our AI-powered screening assistant. It'll ask you a few questions about your work experience. A recording and transcript of the conversation is shared with your recruiter. The AI doesn't make hiring decisions; a real person on our team always reviews your responses and decides next steps.

Your information is kept securely in our applicant tracking system and with Whippy, the trusted platform that powers this screening tool (their data centers meet SOC 2, ISO 27001, and HITRUST security standards). We only share what's needed with Whippy to run the screening, and we never sell your information. You can read Whippy's full privacy policy here: whippy.ai/legal/privacy-policy

Prefer to skip the automated call? No problem — just reach out to your local branch and we'll set up a screening call with a recruiter directly instead. And if you'd rather not get text updates, just reply "STOP" at any time.

If you're a California resident, you have additional rights under the CCPA/CPRA around your information, including the right to know, correct, delete, or opt out of certain uses. You can view our full notice here: [NWS CCPA/CPRA Notice to Applicants/Employees](#).

Questions about any of this? Just reach out to hrx@nwstaffing.com we're happy to help.

Thanks,
Your NWS Recruitment Team
